## **Educational Mini-Grant Program**

In an effort to promote and support environmental science education, and to foster an appreciation for nature and the outdoors by Seekonk students, the Seekonk Land Conservation Trust is sponsoring its 2017-2018 Educational Mini-Grant Program. The Mini-Grant Program is intended to provide financial assistance to Seekonk public school educators interested in developing student programs focused on environmental studies.

Grants awarded in the past have included field trips to study Seekonk's Burr's Pond, the Runnins River, and the Rhode Island coastlines. Students have also attended programs at area wildlife and environmental preserves, and science museums. We have purchased butterfly cocoons, garden plants, and environmental software. We have also funded class whale watch trips. Programs proposed may include any project related to nature and need not be confined to the field of science.

Maximum grant award is \$500. Funds may be used to cover program costs, classroom materials, and transportation costs. Applications are considered on a first-come, first-served basis.

On a separate page please provide the following information, so that we may best evaluate funding for your program:

- Describe the goals of your program.
- Describe how the results of the program will be reported to the Land Trust (photos, letters from students, copies of student reports, videos, etc.).
- Provide a list of expenses the requested funds will cover.

Please complete the section below and email or mail with the information requested above to:
